

Looking for a pathway to a college or university?

Upon successful completion of EAP, students have met the English language proficiency requirements for entry into the Spokane Community College.

English For Academic Purposes

The Spokane Community College has a partnership agreement with SCEL whereby students can study EAP courses at SCEL. Completion of EAP meets English entry requirement for the Spokane Community College undergraduate programs.

Conditional Admission to Undergraduate Studies

Completion of EAP will meet the English language proficiency required but students must apply separately with all supporting academic documents for entry into the Spokane Community College undergraduate program. SCEL staff will assist with this process.

EAP + One Credit Course

Students in the EAP program are eligible to take one regular college credit course while they are completing their English studies. The college course can be selected from any of hundreds of courses offered each term.

Course Content

English for Academic Purposes (EAP) provides advanced ESL students with the opportunity to improve their academic listening, speaking, reading and writing skills. Upon completion of EAP students are able to analyze academic materials critically and to express themselves fluently, accurately and logically, both orally and in writing.

Prerequisite : English entrance test

- Satisfactory pass in English entrance test OR
- Minimum TOEFL score of 475 OR
- IELTS 4.5 OR TOEIC 600
- CAE Pass
